

Secret Sails

ship tokens, the Square-Riggers · sheet 1 of 4 · print at 100%, no scaling

Cut on the solid lines. Fold each strip on the dashed line, away from you, so the token stands with the ship and her rating facing you.

The plain hull faces the table: every ship of your fleet shows the same back, so nobody can tell a First Rate from a Cutter. Card stock is best; paper with a slip of tape inside the fold works. Fourteen ships: 7, 6, 5, 4, 4, 3, 3, 2, 2, 2, 1, X, X, A. The four spare tokens are blanks: for a lost one, or for a house rule.

Secret Sails

ship tokens, the Lateens · sheet 2 of 4 · print at 100%, no scaling

Cut on the solid lines. Fold each strip on the dashed line, away from you, so the token stands with the ship and her rating facing you.

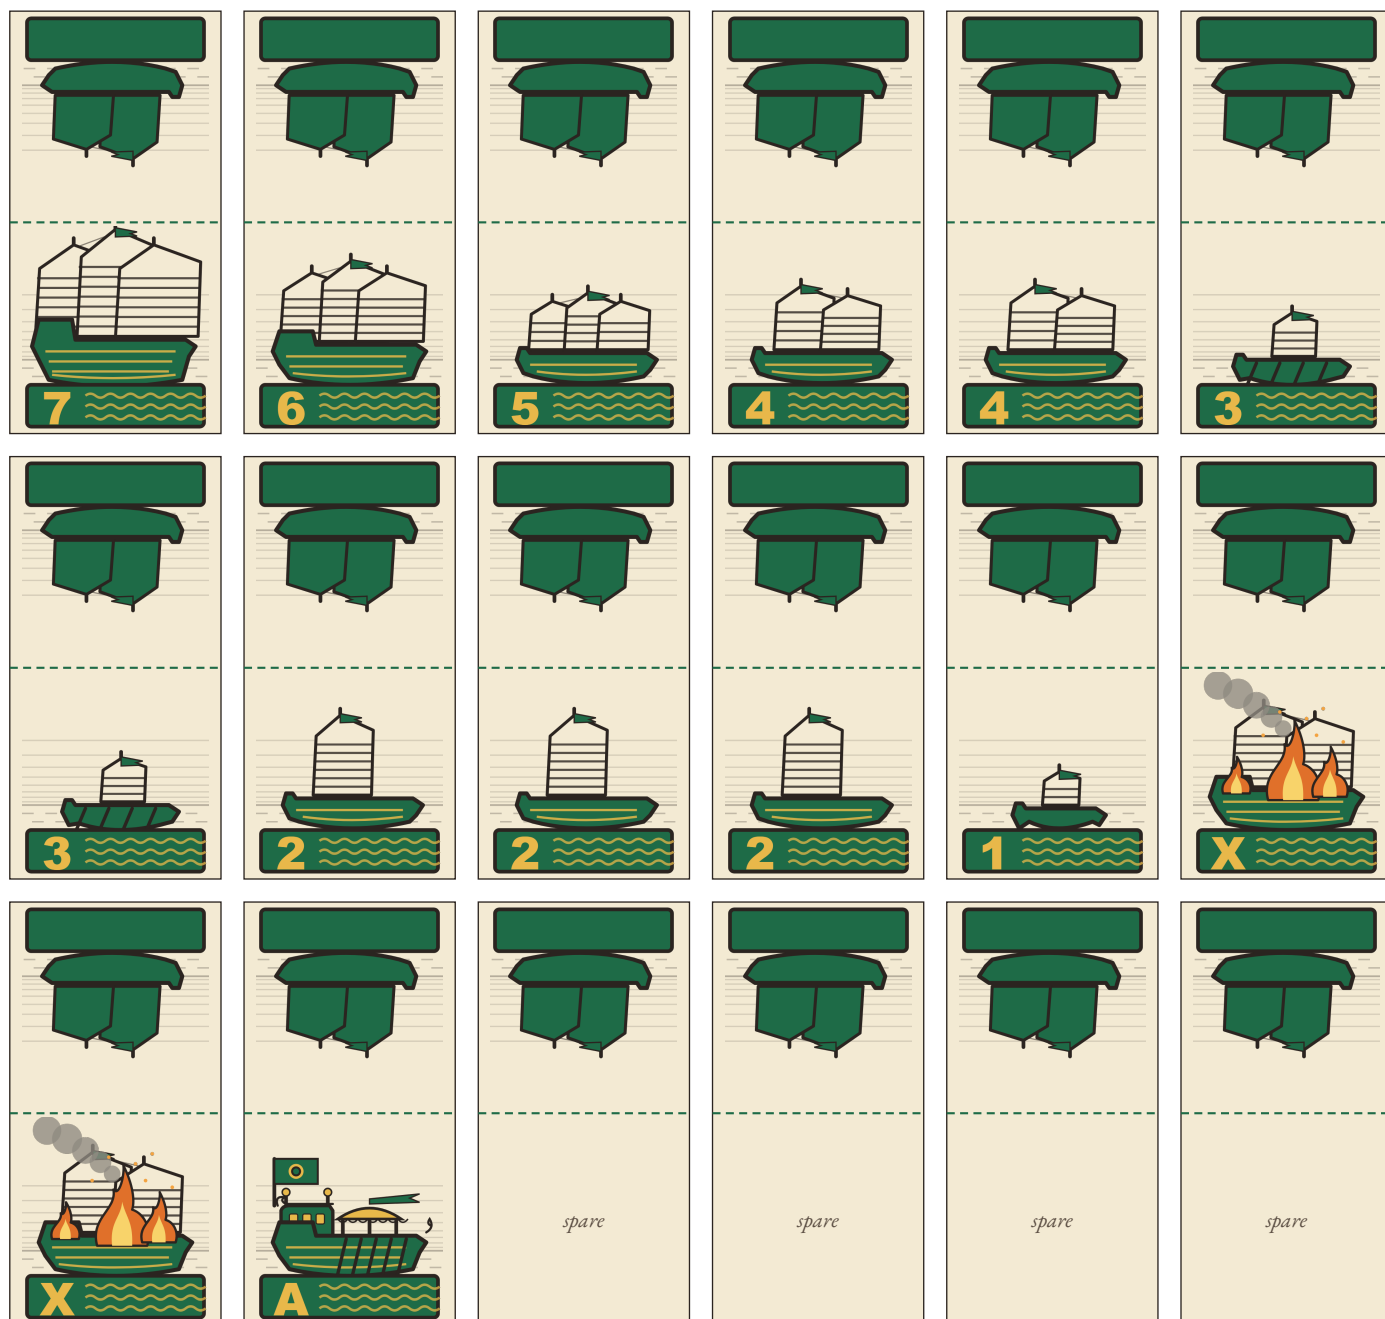

The plain hull faces the table: every ship of your fleet shows the same back, so nobody can tell a First Rate from a Cutter. Card stock is best; paper with a slip of tape inside the fold works.
